## FairfieldNodal Awarded Z700® Project – North Sea

**SUGAR LAND, TX, 5 December 2017** – FairfieldNodal will begin a large Z700 acquisition project in the North Sea, June 2018.

FairfieldNodal acquired the original baseline survey with the Z700 data acquisition system, ideally suited to perform the ultimate 4D monitor for superior data quality.

This acquisition project is expected to take less than two months to complete.

For more information, contact Debra Dryer at 281.275.7500, or visit [fairfieldnodal.com](http://fairfieldnodal.com).

### About FairfieldNodal

Privately held FairfieldNodal, a global leader in seismic nodal technology, designs and manufactures a complete range of revolutionary, true cable-free ZLand® and ZMarine® systems, and offers expert marine acquisition and data processing services. Famous for its ever-improving Gulf of Mexico Shelf multi-client database, the company is also expanding licensing coverage in the revitalized Permian Basin.
